

# Dragon Chillies

Feel The Fire

Dragon Chillies produce chilli products from their own locally grown chillies including the Chilli Jam and Chilli Chutney that we now stock.

The jam and the chutney come in Mild, Medium and Hot versions and taste fantastic! I love the Hot Chilli Jam with cheese and crackers but I'm told they also go well with meat. The sample jar we were left didn't last five minutes....!!  
Delicious.

Find them next to the cheeses in the chiller (although they don't actually need to be chilled until opened).
